

Changes to VETASSESS assessment requirements for General Occupations from 1 January 2010

VETASSESS conducts assessments for over 200 occupations for people applying to migrate to Australia under the Commonwealth Government's General Skilled Migration (GSM) and Employer Nomination Schemes (ENS).

From the **1st of January 2010**, **VETASSESS** will be changing the requirements for assessment against these "Generalist Occupations" which are managerial, administrative, professional and associate professional occupations. The new assessment process will help to ensure that applicant's who meet the requirements under the new process are job ready and have the relevant skills and qualifications for employment in Australia in their nominated occupation.

From 2010, in order to receive a positive assessment, you will need:

- to hold a qualification which is assessed at the required educational level in a highly relevant field of study to the nominated occupation
and
- at least one year of relevant employment for all occupations. For some occupations, if your qualification has a shortfall in content relevance either one or two additional years of employment is required

Requirements for the new process

To assist you with your application VETASSESS has additional information on its website. Please see our website from mid November 2009 for the new requirements for each occupation, our self assessment tools and further information.

Below is a summary of the new requirements for each occupation which have been grouped according to the additional information that you need to provide.

A Group **

A Group Occupations require a qualification which is assessed at the level of an Australian Bachelor degree, in the same field as the nominated occupation. In addition to this, an applicant must have at least one year of relevant employment experience at an appropriate level.

Examples of some occupations in this group include:

- Agricultural Scientist
- Biochemist
- Chemist
- Geologist
- Life Scientists [nec]
- Teacher - Education Officer
- Teacher - Vocational Educational Teacher (non trades)
- Urban and Regional Planner

B Group **

B Group Occupations require a qualification which is assessed at the level of an Australian Bachelor degree, in a relevant field. In addition to this, the applicant must have at least one year of relevant employment experience at an appropriate level. Either two or three years of relevant employment experience will be required if the qualification/s is identified as having a shortfall in content relevance.

**** For Group A and B occupation - If you are a recent Australian graduate requiring a Skills Assessment to apply for a Skilled – Graduate subclass (Temporary) 485 subclass visa, you may nominate a B Group occupation, but your Bachelor Degree level studies must be in a relevant field.**

Examples of some occupations in this group include:

- Advertising Specialist
- Construction Project Manager
- Environmental Health Officer
- Hotel or Motel Manager (Degree)
- Marketing Specialist
- Production Manager (Manufacturing)
- Research and Development Manager

C Group

C Group Occupations require a qualification assessed as comparable to the educational level of an Australian Diploma, in a relevant field. In addition to this, the applicant must have at least one year of relevant employment experience at an appropriate level. Two years of employment experience is required if the qualification/s has a shortfall in content relevance.

Examples of some occupations in this group include:

- Architectural Associate
- Building Associate
- Financial Investment Adviser
- Hotel or Motel Manager (Diploma)
- Office Manager
- Project or Program Administrator

D Group

D Group Occupations require a qualification which is assessed as comparable to the educational level of an Australian Certificate IV, in a relevant field. In addition to this, the applicant must have at least one year of relevant employment experience at an appropriate level. Two years of relevant employment experience is required if the qualification/s has a shortfall in content relevance.

Occupations in this group are:

- Building Associate Professionals (nec)
- Civil Engineering Technician
- Metallurgical and Materials Technician

Recent Graduates with Australian Studies who intend to apply for a Skilled – Graduate (Temporary) visa (subclass 485) *(Applies only to those who intend to apply under this visa).*

The Department of Immigration and Citizenship recognises that recent graduates with Bachelor Degree or above level qualifications may not have sufficient employment at the required level for a complete Skills Assessment from VETASSESS. For this reason, VETASSESS will offer a two - stage process for applicants who indicate they will be applying for this visa. The first stage will lead to a Skills Assessment which may only be used to support an application for a 485 visa.

To be eligible for this assessment you will need to

- have recently completed Australian studies (within the previous 6 months)
- be applying for the Skilled – Graduate (Temporary) visa (subclass 485)
- nominate an occupation from either Group A or Group B
- hold a qualification which is assessed as being at Australian Bachelor degree level (or higher), in a highly relevant field of study to your nominated occupation for Part 1 (Educational Assessment).

Once you have obtained at least 12 months of employment in the field of your nominated occupation, you may apply for Part 2 of the Skills Assessment which is the assessment of your employment. This will complete the Skills Assessment required for permanent migration under the General Skilled Migration Program or the Employer Nomination Scheme.

Frequently Asked Questions

What if I want to apply before the changes?

If you apply before the 31st of December, 2009, with all the relevant documents and payments, your application will be processed under the current guidelines. If your case is delayed due to missing documents or payments, you may be asked to apply under the new process.

VETASSESS recommends that you should submit your application and all relevant documents by the 18th of December 2009 to ensure that your application is processed under the current system otherwise the new criterion may apply.

I have obtained a successful assessment under the current guidelines. Will this still be accepted by DIAC?

DIAC will continue to accept all VETASSESS Skill Assessments from both the old and new system provided that your nominated occupation remains on the Skilled Occupation List and VETASSESS is the designated assessing authority for that occupation. However, the Department of Immigration and Citizenship may ask you to have a current VETASSESS

assessment if there is a significant gap between the date of assessment and the date of applying for your visa.

I started my Australian study this year and won't finish until next year; will the new process affect me?

Yes. You will need to apply under the new system once you have successfully completed your studies.

VETASSESS requires evidence of course completion and eligibility to graduate for the assessment. If your course completion date is in 2010, you will need to complete the new process.

Applicants in Australia who have completed an Australian Bachelor degree or equivalent level Australian studies, who nominate a 50 point occupation will need to decide whether they are eligible to apply for the full Skills Assessment, or only a Part 1 assessment. The full assessment (assessment of qualification's and employment) is required to support an application for permanent migration. The Part 1 assessment is required to support an application for a Skilled – Graduate (Temporary) visa (subclass 485) and may only be used for this purpose. Please see above for more information on this.

For more information see <http://www.immi.gov.au/skilled/general-skilled-migration/485/>

How much will it cost?

Please see our website from mid November for more information about the new assessment process and the relevant fees.

How long will the assessment take?

Most assessments will be completed within eight weeks, however some can take longer. Qualifications from Pakistan and the People's Republic of China can take longer to complete.

What are the new requirements?

All occupations will be required to have a qualification in a field of study which is at the correct level, and in a field which is highly relevant to the nominated occupation, as well as a minimum of one year of employment in a highly relevant occupation. For some occupations, additional years of employment will be required if the qualification is at the required level but the major field of study does not match the nominated occupation.

Further information will be posted to our website in November.
